

C2 Exclusive

C2 Exclusive, as its name, is an exclusive chair in the C2 family. We have worked on a few add-on features to make this chair unique. The intricate details of joinery become a part of the design. Two sets of stainless-steel rectangular tubes are bent at a perfect angle to join the seat and the back while giving the flexibility of synchronised tilting for well-balanced support and movement, depending on your body and posture. The construction of these seats and backs are a bit different. The skeletal frame is a solid rod; on this nylon strips are woven, forming a mesh. This frame is then sandwiched between the moulded foam, giving it the desired strength and contour. To provide more exclusivity, we have given this chair wooden armrests and stainless steel revolving base.

C2 Exclusive

As we know, detail and design go hand in hand. To give it complete smoothness, we have added a small but prominent horizontal stitch at the centre of the seat and back, which helps the upholstery fit snugly to the chair, giving it a complete finished look. The C2 exclusive series also includes all ranges of chairs right from high back, medium back and low back chairs, and the options of with or without arms chairs.
