New Itsa

New Itsa is an easy-going, simple, boxlike chair with perfect ergonomics designed to add comfort and simplicity to your workspaces. The oblong seat and back designed with chamfered edges are constructed of moulded polyurethane foam encompassing the structure of moulded compressed wood which is later finished in the upholstery of choice. The waterfall edge profile of the seat gives added support to the knees of the User. One of this chair's appealing elements is its very grounded flower-shaped revolving base made by embossing sheet metal. New Itsa family of task chairs includes a variety ranging from cushioned back in low and medium heights to mesh back with a choice of colours and our Signature PVC and Jute woven backs.

New Itsa

The New Itsa chair's main essence is its triangular hollow arm structure; these chairs give an impressive see-through feeling when placed in a row. A solid metal section is bent to form this triangle. The armrest can be made in handcrafted solid wood with a choice of stain colours or the regular black polyurethane.

New Itsa

The New Itsa family also include a wide range of static chairs, in variations of with and without arms which can be used for the Visitors and Multipurpose seating. These chairs are more compact than the revolving task chairs and can also be used for the cosy urban cabins.
